

Surveys & Plans

TBT Surveyors Inc (a TBTE company) provides a full range of professional engineering survey services to both the public and private sectors. The company is managed by Chris Zappe, who has over 15 years of experience in surveys and plans development throughout North-western Ontario. Chris and his survey crews have assisted with completion of design projects involving roads, bridges, tailings dams, river dredging operations, aggregate resource plans, environmental monitoring plans, subdivisions, base maps, route studies and planning studies. TBT Surveyors Inc has vast expertise in cost estimation and quantity surveying and can also assist in construction site inspection and supervision.

EXPERTISE

ENGINEERING SURVEYING
