

Trailer / Skid Mounted CME 45 Drill Rig

- Economical, efficient rig that can drill solid or hollow-stem augers.
- Can be mounted on a truck, trailer or ATV carrier to allow for damage free movement on paved surfaces and sensitive grassy areas.
- Ideal for shallow environmental and geotechnical drilling in parking lots, gas stations, residential areas, etc.
- Short tower is ideal for use in limited overhead clearance projects (low clearance drilling).
- Can drill holes up to 13 inches [33 cm] in diameter.
- Power is provided by a deck-mounted Wisconsin 4 cylinder gas engine.
- Capable of rock coring with BQ or NQ rod sizes and wash bore drilling.
